*The Firms dealing in Steel Racks.*

*Enquiry* No. 3593.

STEEL RACKS FOR THE PUBLIC BRANCH RECORDS HALL OF THE MYSORE STATE LIFE INSURANCE DEPARTMENT, BANGALORE.

DEAR SIR/GENTLEMEN,

Please be good enough to intimate your best prices and the earliest time of delivery for the materials described in the attached schedule, in the form printed overleaf.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellations of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Steel Record Racks for the Mysore State Life Insurance Department" with the above enquiry Number.

This enquiry will be closed on the 25th August 1939.

*Schedule.*

| Item No. | Description of material offered | Quantity | Price quoted F. O. R. | Time of delivery |
|---|---|---|---|---|
| | STEEL RECORD RACKS.<br><br>Racks are to be fitted up in the *Public Branch Records Hall on the ground floor measuring* 58 *ft. by* 16 *ft.* There are at present ten double units of closed steel racks fitted up almost in the centre of the hall and these will have to be used to the best advantage in the course of re-fitting. The steel racks will have to be fitted in the hall from the ground up to the ceiling and along the wall, and should be provided with a gallery, railing and stair case, which will have to be guaranteed by the firm, as regards load, capacity, etc., and the whole structure should provide the maximum storage capacity for the records and at the same time taking care that the doors and windows are not blocked or covered up by any fittings, so as to prevent proper ventilation. The whole structure should be a combination of open and closed racks with suitable number of shelves as in the existing racks and should be designed in such a way as to give the maximum storage capacity and also present very neat appearance in the matter of finish and get up. Best tempered steel as is used for the existing racks is to be employed for the structure, which will have to be painted olive green. The bolts and nuts used for rivetting should be of a uniform and standard pattern. The racks are to be fitted up free of cost in this office. The arrangements regarding shelves in the racks should be adjustable so as to facilitate the fitting up of extra shelves or lessening them, if required, according to the nature of the records, which may have to be arranged. | | | |

Drawing showing the details of construction should accompany the quotations. The spot of construction of the Racks in the Insurance Office Building may be inspected on any working day during office hours.

Yours faithfully,
T. RANGASWAMI,
*Secretary,*
*Stores Purchase Committee.*
